

REMARKS

With this paper, claims 59-76 have been cancelled without prejudice and new claims 77-94 have been added. No new matter has been added as the specification has support for the new claims as originally filed. Applicants previously canceled claims 1-58 in a Preliminary Amendment dated October 18, 2006.

It is further respectfully submitted that the amended claims in the present application sufficiently correspond to the allowable/patentable claims in KIPO application No. 10-2002-0057459, filed on September 19, 2002, from which the present U.S. application claims priority. Justification for the amendments is provided in the enclosed Claims Correspondence Table as required for participation in the PPH Program. Further included are Korean and translated copies of the allowable claims and the single office action (Notice of Allowance) received from the Korean patent office, and a statement certifying the accuracy of the translations.

Applicants respectfully request entry of this amendment prior to examination of the application, and early favorable action thereon. If for any reason the Examiner believes a telephone conference can advance the prosecution of this application, the Examiner is requested to call the undersigned agent at the Los Angeles, California telephone number 213-623-2221.

Applicant requests that all deficits and credits in regards to this filing be referenced to Deposit Account No. 502290 order 2101-3052.

Respectfully submitted,

LEE, HONG, DEGERMAN, KANG & WAIMEY
